1. Landing page

URL: / | Role: Public (no login) | Template: home.html

Feature purpose Marketing entry point for new schools and parents. Explains what ESA does before anyone creates an account. Primary conversion: school registers and picks a subscription tier.

① HERO CAROUSEL

Three rotating slides (optional): platform overview, teacher sign-off trust message, parent portal preview. Auto-advance or manual dots.

② GET STARTED CTA

Links to Register school flow for new tenants, or Register for parents/students joining an existing school.

③ FEATURE CARDS

Three cards summarise core value props — not feature depth. Assessor should read these as elevator pitch, not spec.

④ TOP NAVIGATION

Subscribe → pricing tiers. Log in → shared login for all 5 roles (redirect after auth). Register → role picker.

Not on this page No dashboards, no student data. Fully public — no tenant context until login.

2. Subscription / pricing

URL: /payments/subscription/ | **Role:** School Admin (or public preview) | **Integration:** Stripe Checkout

+ Stripe fees, analytics, messaging

Subscribe

Feature purpose Monetises the platform per school tenant. Tier gates features (e.g. payments on Premium). Stripe handles card capture; ESA stores subscription status on School record.

① TIER COMPARISON

Each card lists student limits and feature flags. Struck-through items on lower tiers show upgrade path.

② SUBSCRIBE BUTTON

Redirects to Stripe Checkout session. On success → /payments/success/ with receipt reference. Webhook updates tier in database.

③ CURRENT TIER PILL

School Admin sees which plan is active. Cannot downgrade if over student limit (validation on backend).

④ SUPER ADMIN VIEW

Platform-level Subscriptions page lists all schools with tier + MRR — separate screen (#4).

3. Login & registration

URLs: /accounts/login/ · /accounts/register/ · /accounts/register-school/ · /accounts/verify-email/

ESA

Log in

[Forgot password?](#)

Sign in

Register (student/parent)

Create account

Feature purposeSingle auth entry for all roles. After login, Django redirects to role-specific dashboard. Registration creates User + role profile scoped to one school (multi-tenant isolation).

① LOGIN FIELDS

Username OR email accepted. Failed login shows generic error (no user enumeration). Session cookie + CSRF protection.

② REGISTER — SCHOOL PICK

User must select existing school from dropdown. Cannot register without valid school slug.

③ REGISTER — ROLE

Student → must pick class. Parent → optional link code to attach child immediately. Teacher accounts created by School Admin only.

④ REGISTER SCHOOL

Separate form: school name + admin user in one step. Creates School tenant + first School Admin. Then email verification (6-digit code).

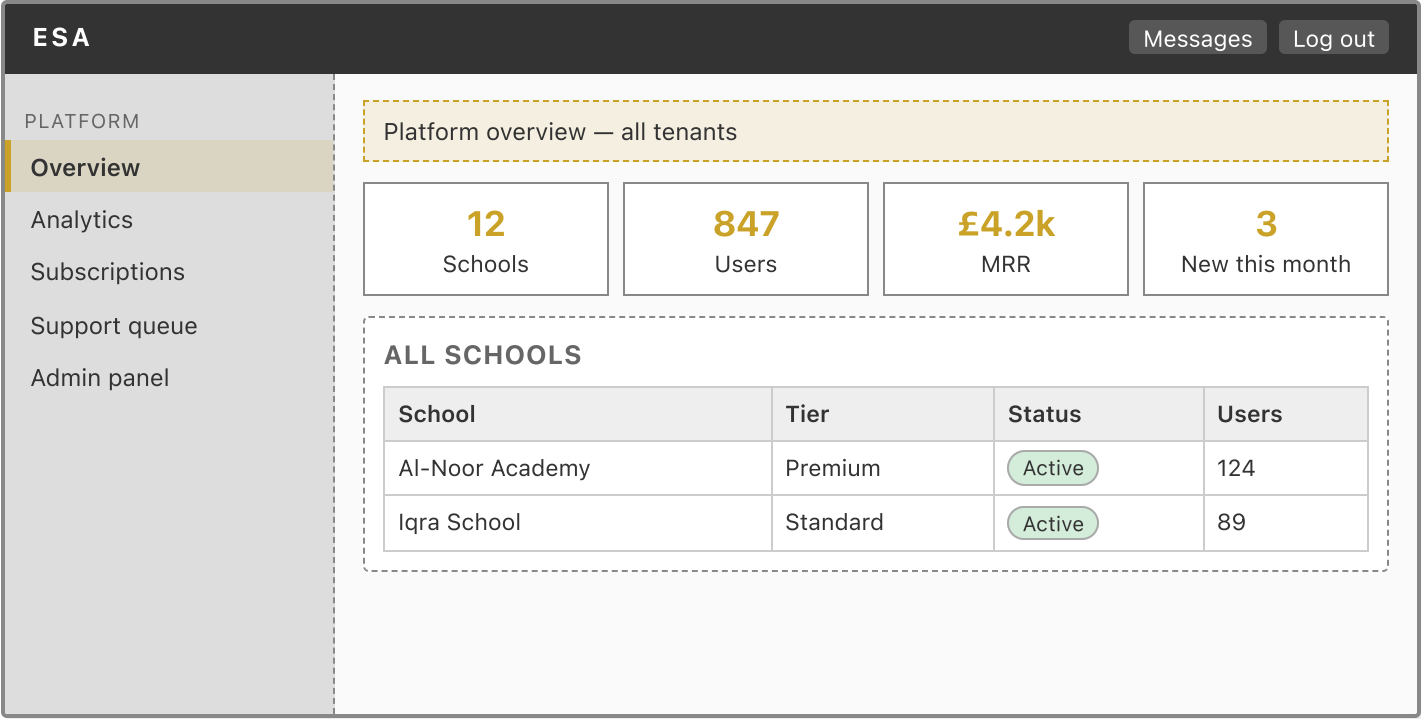

⑤ PASSWORD RESET

Email link → set new password. Token expires. Standard Django auth flow.

Parent link codeAlso available at /link/CODE/ for logged-in parents to attach another child without re-registering.

4. Super Admin dashboard

URL: /dashboard/super-admin/ | **Role:** Super Admin only | **Scope:** All schools platform-wide

Feature purposePlatform operator view. Manages all school tenants, subscription revenue, and support cases. No access to individual student grades — aggregate metrics only unless drilling into Django admin.

SIDEBAR LINKS

Overview (this page), Analytics (cross-tenant charts), Subscriptions (tier management), Support queue (parent/school tickets), Admin panel (Django /admin/ for raw data).

SCHOOLS TABLE

Columns: name, subscription tier, active/suspended status, user count. Click row → school detail (optional future). Suspend blocks all logins for that tenant.

SUPPORT QUEUE

Lists open cases with case number, subject, status. Staff reply in thread — similar to Messages but platform-scoped.

Tenant boundarySuper Admin sees all schools. School Admin never sees this screen.

5. School Admin dashboard

URL: /dashboard/school-admin/ | **Role:** School Admin | **Scope:** One school only (Al-Noor Academy)

RECENT ACTIVITY

Mrs Khan marked 7A register · Attendance

Juz 3 signed off — Amina Hassan · Hifz

Feature purpose Command centre for one school. Admin sets up teachers, classes, timetables, LMS content, and fees. All queries filtered by school_id — cannot see other tenants.

① KPI CARDS

Live counts from database. Attendance today = % of students marked present across all classes. Fees outstanding = sum unpaid FeeItems.

② TEACHERS / ADD TEACHER

List shows name, email, subject. Add form: username, email, first/last name, subject, password. Creates User with role=teacher + TeacherProfile.

③ TIMETABLE HUB

Create classes (7A, 7B), build weekly grid, assign teachers per slot. Archive old timetables. See screen #9.

④ LMS HUB

Subjects → tracks (Foundation/Higher) → upload materials (link, PDF). Assign track to class. Teachers see assigned content.

⑤ FEES (SCHOOL SIDE)

Create fee item: pick parent, child, title, £ amount, due date. Parent sees it on their Fees page with Pay now.

⑥ FIND STUDENT

Search by name or admission number. Shows class, linked parents, link code for parent registration.

6. Teacher dashboard

TODAY'S LESSONS

09:00 Quran — 7ATake register

10:30 Hifz — 8BTake register

PENDING SIGN-OFFS (3)

Student	Type	Action
Amina Hassan	Homework	Review
Yusuf Ali	Exam written	Mark

Feature purpose Teacher's daily hub. Shows today's timetable slots with quick links to attendance. Surfaces queues needing teacher verification (homework, exams, Hifz). Teachers are NOT locked to homeroom — can mark any student in school.

① TODAY STRIP

Pulls from teacher's assigned timetable slots. "Take register" pre-fills class + subject on attendance page.

② PENDING SIGN-OFFS

Aggregates: worksheet submissions awaiting approve/reject, exam written answers needing marks, optional Hifz reminders. Links to relevant module.

③ SIDEBAR — TEACHING

Full module access. Qur'an = mushaf sessions. Hifz = juz sign-off form + history.

④ SIDEBAR — REPORTS

Structured message to parent: strengths, improvements, action required. Stored and visible on parent Reports page.

⑤ SIDEBAR — SIGN-OFF

Deep links to #pending on worksheets, #finalise on exams, #signoff on Hifz. Core trust model: parents only see teacher-approved data.

7. Student dashboard

Welcome, Amina · Class 7A · Al-Noor Academy

DUE HOMEWORK

Surah revision · 14 Jun · Pending

Maths sheet · 16 Jun · Not submitted

HIFZ PROGRESS

Juz 1 · Signed off

Juz 2 · Signed off

Juz 3 · Signed off

Feature purpose Student sees own data only — timetable, assignments, exam sit UI, Qur'an sessions (read-only mushaf), signed-off Hifz juz list, attendance history, teacher reports.

READ-ONLY VS EDIT

Can SUBMIT homework and exam answers. Cannot edit Hifz sign-offs, attendance marks, or Qur'an teacher notes/highlights.

HOMEWORK

Lists assignments for student's class. Submit opens textarea or file upload. Status changes to Submitted → Approved/Rejected after teacher sign-off.

EXAMS

Only published exams shown. After submit, waits for teacher to mark written sections and finalise. Scores hidden until finalised.

QUR'AN

Opens session list → mushaf viewer with teacher highlights and notes visible but not editable.

No fees, no behaviour log Those are parent/admin views. Student sidebar is intentionally narrower.

8. Parent dashboard

4/5Homework

£85Fees due

Pay feesMessage teacher

Feature purposeParent monitors linked children only. Cannot see other students. All academic data is post-sign-off (teacher verified). Fees paid via Stripe Checkout.

① CHILD SELECTOR

If multiple children linked, tabs switch context. All KPIs and reports filter to selected child.

② LINK CHILD

Enter school-issued code (from Find student admin page). Creates ParentChild relationship. Also works at /link/CODE/.

③ HIFZ PROGRESS

Read-only table: Date | Student | Juz | Teacher. Only appears after teacher clicks "Student has passed". Auto-message sent on sign-off.

④ EXAM RESULTS

Finalised scores only – same trust model as homework approval.

⑤ PAY FEES

Redirects to Stripe for outstanding Fees. Receipt stored; status → Paid.

9. Timetable builder & view

	Mon	Tue	Wed	Thu	Fri
09:00	Quran <i>Mr M</i>	Arabic	Quran	Maths	Hifz
10:00	English	Hifz	Science	Arabic	Quran

Save timetable

Feature purpose Weekly schedule per class. School Admin creates classes, timetables, and assigns teachers to slots. Drives teacher "Today" dashboard and attendance context.

① TIMETABLE HUB

Lists classes (7A, 7B, 8A). Create new timetable → name + assign class. Archive removes from active but keeps history.

② BUILDER GRID

Mon-Fri columns, time rows (08:30-14:00). Drag subject from palette onto cell → teacher dropdown appears for that slot.

③ SAVE

Persists TimetableSlot records. Flash success message. Teachers immediately see updated My timetable.

④ STUDENT/PARENT VIEW

Same grid, no edit controls. Read-only for planning week ahead.

⑤ TAKE REGISTER LINK

From teacher dashboard, slot link passes class + subject query params to attendance form.

10. Attendance register

URL: /attendance/ | **Roles:** Teacher marks · Admin overview · Parent/Student read-only history

ESA

Class register — Quran · 7A

Class: 7A ▾ Date: 2026-06-14

Student	Class	Present	Late	Absent
Amina Hassan	7A	●	○	○
Yusuf Ali	8B	○	●	○
Maryam Begum	7A	○	○	●

124 students in school — all shown, not just one class

Save register

Feature purposeDaily presence tracking. Teachers mark any student in the school (cross-class). Data feeds School Admin analytics KPI and parent attendance history.

① CLASS DROPDOWN

Filters default view but register lists ALL school students with their home class column — supports supplementary school model where teachers aren't homeroom-only.

② DATE PICKER

Defaults to today. Changing date reloads existing marks if register already saved.

③ STATUS RADIOS

One of Present / Late / Absent per student. Optional notes field for late/absent (not shown in wireframe, exists in live app for extended rows).

④ SAVE REGISTER

POST creates/updates AttendanceRecord per student+date. Flash confirmation. Idempotent re-save.

⑤ PARENT VIEW

Read-only table: Date | Status for linked child only. No edit.

⑥ ADMIN VIEW

School-wide attendance overview % on dashboard — aggregate of today's registers.

11. Homework / worksheets

URL: /worksheets/ | **Sign-off:** Teacher approves before parent sees final status

ESA

CREATE ASSIGNMENT (TEACHER)
Class ▾ · Subject ▾ · Title · Due date · Create

SUBMISSIONS — PENDING SIGN-OFF

Student	Assignment	Status	Actions
Amina Hassan	Surah revision	Submitted	<button>Sign off</button> <button>Reject</button>

STUDENT SUBMIT VIEW
Textarea + file upload + Submit homework

Feature purposeDigital homework pipeline with teacher verification. Parent trust: homework marked "done" only after teacher sign-off, not merely submitted.

STATUS FLOW

Draft → Submitted (student action) → Approved or Rejected (teacher action). Rejected may include feedback for resubmit.

SIGN OFF BUTTON

Sets signed_off=true, signed_off_by, signed_off_at on WorksheetSubmission. Triggers optional parent notification.

PENDING SECTION

Highlighted at top of teacher page (#pending anchor from sidebar). Sorted by due date.

LMS LINK

Teachers can assign LMS track materials separately (Assign to class) — worksheets are distinct graded submissions.

12. Exams

URL: /exams/ | Flow: Build → Publish → Sit → Mark → Finalise

ESA

MCQ BUILDER

Prompt · Max marks · [+ Add](#)

[Publish exam](#)

FINALISE RESULTS

Student	Auto (MCQ)	Written	Final	Finalised?
Amina Hassan	18/20	12/15	30/35	Finalise

Feature purposeMixed MCQ (auto-marked) and written (teacher-marked) exams. Results invisible to parents until teacher finalises — prevents draft scores leaking.

① MCQ AUTO-MARK

On student submit, system compares selected option to correct answer. Score stored immediately but not "official".

② WRITTEN MARKING

Teacher opens each student's written answers, enters marks per question. Manual queue on teacher dashboard.

③ FINALISE BUTTON

Locks ExamResult. Parent and student can then view on Exam results page. Cannot unfinalise (audit integrity).

④ STUDENT SIT UI

One question per section or scrollable form. MCQ radio buttons + textareas for written. Submit once — no edit after (configurable).

Draft examsNot visible to students until Publish clicked.

13. Hifz juz sign-off

URL: /hifz/ | Model: Juz 1–30 milestones (not surah-by-surah tracker)

ESA

TEACHER SIGN-OFF FORM

Pick student and juz, confirm they have passed. Parent receives congratulations message automatically.

Student ▾ Amina Hassan

Juz ▾ 4

Student has passed

SIGNED-OFF JUZ HISTORY

Date	Student	Juz	Teacher
14 Jun 2026	Amina Hassan	Juz 3	Mr Mohammed
01 Jun 2026	Amina Hassan	Juz 2	Mr Mohammed

Feature purpose Simplified Hifz tracking: teacher confirms whole juz completion. Replaces earlier surah-row design. One sign-off = one juz milestone visible to student and parent.

① STUDENT DROPDOWN

All students in teacher's school (school-wide, not class-locked). Searchable on live site.

② JUZ DROPDOWN

Integers 1–30. Duplicate sign-off for same student+juz blocked or updates timestamp (backend validation).

③ STUDENT HAS PASSED

Creates HifzSignOff record. Service layer sends automated message to linked parent(s) congratulating milestone.

④ HISTORY TABLE

Teacher sees Date | Student | Juz (no teacher column). Parent/student see Date | Student | Juz | Teacher.

Not included No sabaq/muraja'ah planner, no surah progress bars — intentionally scoped down for MVP assessor demo.

14. Qur'an mushaf viewer

URL: /quran/ · /quran/session/<id>/ | **Not** ayah picker — full PDF mushaf pages

Undo last

[PDF mushaf page — 30 juz files in static/quran/mushaf/]

Notes for this page

Tajweed: elongate madd on verse 3. Student improving on ghunnah.

Audio: student recitation upload · teacher feedback audio (optional)

Feature purpose Teacher-led Qur'an recitation review on real mushaf pages. Highlights and per-page notes persist per session. Student/parent view same session read-only.

① NAVIGATION

Prev/next page within juz; prev/next juz jumps to first page of adjacent juz PDF. Label always shows current juz + page number.

② ZOOM

– / + increment scale. Fit resets to fit-to-width inside scroll container. Canvas uses PDF.js rendering.

③ HIGHLIGHTS

Teacher drag-selects region on page; colour applied. Stored per page in database. Undo removes last highlight. Auto-save indicator.

④ PAGE NOTES

Large textarea — saves on page change or debounced typing. Teacher editable; student/parent readonly attribute.

⑤ SESSION STATUS

Draft → Submitted (student) → Reviewed (teacher). List filters by student for teacher; student sees own sessions only.

⑥ AUDIO SECTION

Optional student upload + teacher recorded feedback — separate panel below viewer.

15. Behaviour log

URL: /behaviour/ | **Roles:** Teacher logs · Parent reads linked child

ESA

LOG INCIDENT / COMMENDATION

Student ▾ · Type ▾ · Commendation / Incident · Title · Notes

Save record

Date	Student	Type	Title	Logged by
12 Jun	Amina Hassan	Commendation	Helped tidy classroom	Mr Mohammed
10 Jun	Yusuf Ali	Incident	Late to lesson	Mrs Khan

Feature purpose Lightweight behaviour tracking — positive and negative. Parents see commendations and incidents for linked children. Feeds analytics incident count.

FORM FIELDS

Student (required), Type enum, Title (short), Notes (longer context). Timestamp and logging teacher auto-set.

PARENT VIEW

Read-only filtered list. No ability to dispute in-app (would use Messages to contact school).

ADMIN ANALYTICS

Incident count tile on School Admin analytics dashboard.

16. Messaging

URL: /messages/ | **Scope:** Tenant-scoped; parents ↔ teachers/school office

ESA

Messages ● 2

Mr Hassan
How is Amina's Hifz?

Mrs Begum
Report ready?

Mr Hassan
How is Amina doing in Hifz?

She completed Juz 3 — sign-off sent to you today.

Send

Feature purpose Secure in-app messaging replacing informal WhatsApp for school business. Unread badge on sidebar Messages link. Email notification optional.

CONVERSATION LIST

Left panel shows counterpart name + last message preview. Sorted by recent activity.

THREAD VIEW

Received bubbles left-aligned; sent bubbles right-aligned with gold tint. Timestamps on live site.

NEW MESSAGE

Parent picks teacher or school office. Teacher picks parent. Cannot message across schools.

STRUCTURED REPORTS

Separate from free-form messages — Create report uses fixed fields (strengths, improvements) on Reports pages.

SUPPORT QUEUE

Super Admin has platform-level support cases — different from school Messages.

17. Fees & payments

URL: /payments/fees/ | **Integration:** Stripe Checkout · Stripe Connect for schools

ESA

Outstanding fees — Parent view

Fee	Child	Amount	Due	Status	
Term 3 tuition	Amina	£250	01 Jun	Overdue	Pay now
School trip	Amina	£35	20 Jun	Outstanding	Pay now
Term 2 tuition	Amina	£250	01 Mar	Paid	Receipt

SCHOOL ADMIN — CREATE FEE

Parent ▾ · Child ▾ · Title · Amount £ · Due date · [Create fee item](#)

Feature purpose School Admin creates fee items assigned to parent+child. Parent pays via Stripe Checkout. Payment webhook marks Feeltem paid and stores receipt reference.

PAY NOW

Creates Stripe Checkout session with line item amount. Redirect back to /payments/success/ or cancel URL.

STATUS PILLS

Overdue (past due), Outstanding (future due), Paid (completed). Paid rows show Receipt link.

SCHOOL SUBSCRIPTION

Separate from parent fees — School Admin pays ESA platform via Subscription page (screen #2).

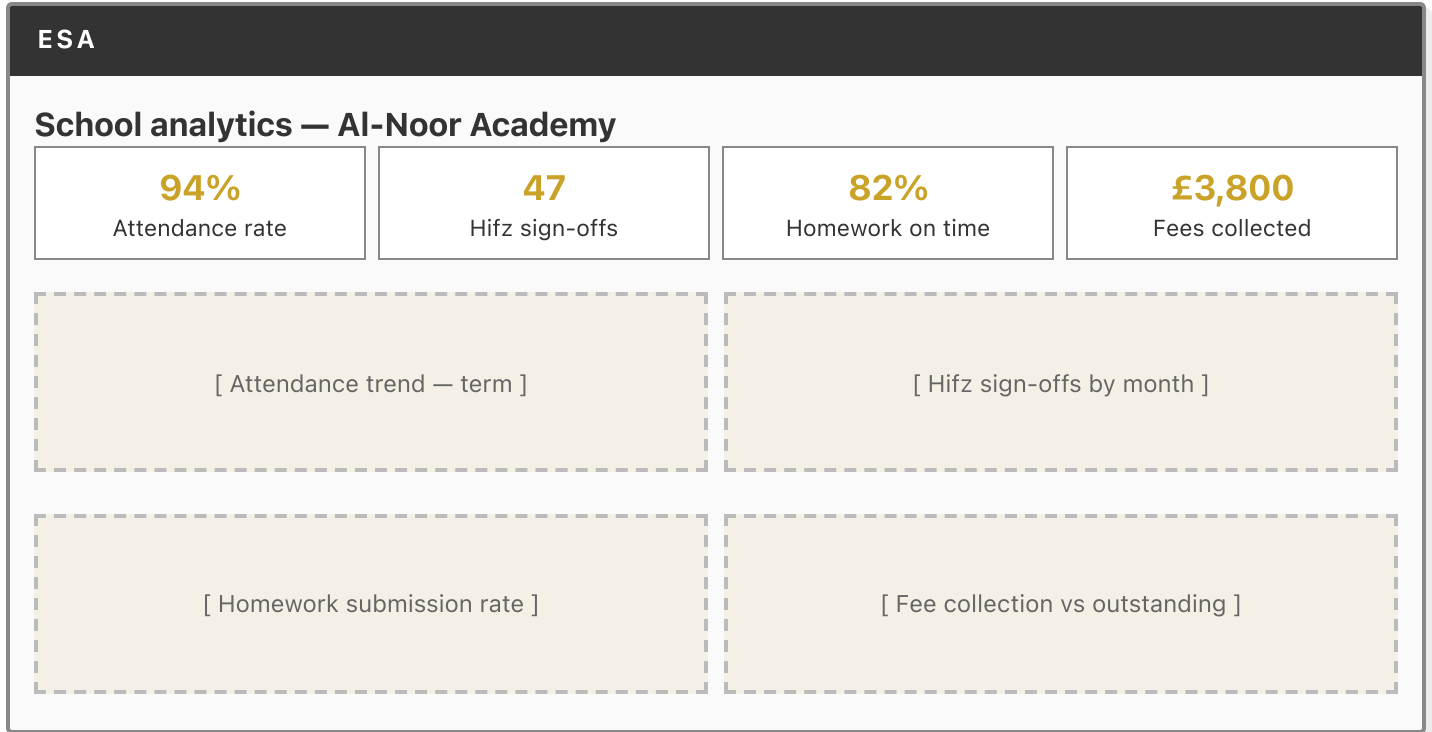

STRIPE CONNECT

Premium schools connect Stripe account so fee payments route to school (documented in README deployment section).

Tenant scope Parent only sees fees for linked children at their school.

18. Analytics dashboard

URL: /analytics/ | **Roles:** School Admin (school data) · Super Admin (platform data)

Feature purpose Leadership view of school health. Aggregates attendance registers, Hifz sign-offs, worksheet submissions, and payments. Premium tier feature.

KPI TILES

Calculated from live DB queries scoped to school_id. Updated on page load (not real-time websocket).

CHART PLACEHOLDERS

Term-over-term comparison. Wireframe shows intent; live site may show tables if charts not fully implemented.

DATA SOURCES

Attendance → AttendanceRecord. Hifz → HifzSignOff count. Homework → submission due dates vs submit time. Fees → Payment totals.

SUPER ADMIN ANALYTICS

Same layout but cross-tenant aggregates — total schools, platform MRR, sign-up trend.
